RE: Headquarters Building

Dear David:

It is my pleasure to extend this letter of recommendation to you and David Construction for a job well done on our new Headquarters Building which includes a training facility. Your management team worked hard and diligently through the entire project. We expected a high level of quality and a high level of service, and we received both from David Construction. Roger Cloud, your project superintendent, was top notch and protected our interest at all times.

We don't build facilities of this magnitude on a regular basis, but you can rest assured that we will include you when we are in need of construction services in the future.

Sincerely,

Underwriters Safety & Claims

A handwritten signature in blue ink that reads "Bruce W. Ferguson". The signature is fluid and cursive, with a long horizontal stroke at the end.
